CAN COMPUTERS WRITE POETRY?

<https://techcrunch.com/2014/01/26/swift-speare/>

Read the article & answer the following

- List five words that you did not understand, even given the context of the text.
- What does SwiftKey's keyboard software normally do, and how can it be manipulated to write?
- According to Matias, what does one need to be able to do in order to write poetry wherein the result can be new works created in the style of various authors?
- What does the phrase by Virginia Wolfe "Words only belong to each other" mean in this context?
- Compare the author's tone in the article to Matias's attitude toward computers writing poetry.
