Copy and correct the errors

Unfortunately, Franek knew how to handle this; he knew my weak spot. My father had never served in the military and could not march in step. But here, whenever we moved from one place to another, it was in step.

Tone is **created** or altered by the way the viewpoint character/narrator treats the story problem and other characters, and by the way he responds to the events surrounding him. Write the words in each quotation that contribute to the tone underlined after the phrase.

1. “The camp looked as though it had suffered an epidemic: empty and dead.”

Tone: desolate

2. “I dragged myself to my corner. I ached all over. I felt a cool hand wiping my bloodstained forehead. It was the French girl. She gave me her mournful smile and slipped a bit of bread into my hand.”

Tone: sympathetic

3. “Suddenly...a man appeared crawling, like a worm in the direction of the cauldrons. Hundreds of eyes followed his movements. Hundreds of men crawled with him, scraping their knees with his on the gravel. Every heart trembled, but with envy above all. This man had dared.”

Tone: depravity

Describe how you might have felt standing in a line waiting to see if you would be selected to die. Do you think you would react differently than the people in *Night*?
